myDermRecruiter
Celebrates 5-Year Anniversary!

[Washington, MO, January 14, 2020] myDermRecruiter, a highly-specialized dermatology recruitment firm, celebrates its 5th anniversary next week. As the #1 Dermatology Recruitment Firm in the Nation, they have many reasons to celebrate this milestone. Founder and CEO, Michelle Sullentrup, who began the now-thriving firm from a home office, has seen tremendous growth since starting the company in 2014. She shares, "I'm most proud of our team and the culture we have developed. We hold each other to extremely high standards, ensuring that the 'normal' way we do business is leaps and bounds above the rest—which has directly affected our success. Our clients recognize the difference in the way they are treated, serviced, and cared for by our team. We have great people, and I couldn't be prouder of them!"

What began as the "desire to provide a true breath of fresh air to the physician recruitment industry by providing a highly-ethical, hardworking, and honest recruitment partner to dermatology practices," has quickly become a leader in dermatology recruitment services. myDermRecruiter currently represents dermatology practice opportunities in 48 states—a number that continues to grow!

The myDermRecruiter team recently expanded its efforts to provide their valued clients with superior, comprehensive services that now include customizable social media management and website design packages. To accommodate a growing team and thriving business, myDermRecruiter had to double their office space this past summer—now totaling more than 2400 square feet!

myDermRecruiter kicked off their anniversary celebrations with a staff outing in the wine country hills of Missouri at Lake Creek Winery. The whole team was engaged and voted on the experience that, staff recounts, "was such a great opportunity to take time together to have fun and friendship, and to highlight all that we have accomplished over

the last 5 years! Knowing the amazing future we have ahead of us, too, we're all grateful to be a part of this team."

Michelle and her team continuously bring innovative new technologies and practices to the recruitment industry. They have some exciting plans in the works for 2020—expanding on their past five years of success. myDermRecruiter is certainly a company to watch in this ever-changing and competitive market.
